

BPM

Student-Day

On September 16th, 2022, the first ever Business Process Management (BPM) Student Day will take place at the University of Münster associated to the BPM conference 2022. Its purpose is to connect students with researchers and professionals, and to bring different perspectives to the topic of Business Process Management.

Deep-dive into the various fields of Business Process Management by getting access to the latest topics in research & check out how companies use BPM in their context.

Get in contact with fellow students, researchers and professionals of similar interest to network and receive a certificate of participation by the ERCIS!

Listen to interesting Keynotes

Professor Jan vom Brocke:

Process Management as an integrated Management Approach

Professor Wil van der Aalst:

Process Mining & the digital representation of Processes

Participate in workshops

Discover how companies use BPM in their individual context during workshops

Choose between conceptualizing and programming workshops
